FLAG 5144B

DESIGN:
PIO E TITO TOSO ›

Flag is a collection of coat stands that result from the synthesis between form and function. Coat stand with steel base and column in powder coated finish, while the arms are made of polypropylene charged with fiberglass. The result is an extremely versatile product thanks to the various possibilities to assemble the four arms, always ensuring its functionality and changing their position to create new geometries. Also available the bags-hanger.
