EUPHORIA CENTER TABLE

ref. 8943.70

Kayan Tribes used gold neck rings as a symbol of beauty and status. Converting this idea into a design, Euphoria Collection is composed by two lighting pieces, a suspension and a wall lamp, that combine an elegant set of rings with different metal finishes. To complete the collection, we added two luxurious furniture designs, a beautiful black velvet stool and a lavishing center table with Nero Marquina marble.

Euphoria table is both elegant and opulent, fitting in the decoration of a luxurious hallway as a central piece or a long living room to center posh sofas and armchairs.

The elegance of the dark Nero Marquina marble is empowered for its irregular white veins making each piece unique and different. The simple design and discrete colors make this an easy fitting for different decoration styles, the sumptuousness of the piece will transform the simplest interior design project in distinctive luxury statements.
