### A COMFORTABLE, ORIGINAL, WELCOMING BED

With the **Colletto bed**, you sleep enclosed within a soft visual and sound barrier. A soft-foam ring around the mattress creates a relaxing atmosphere where you can **escape from the everyday routine**. The ring is attached to the bedframe with velcro and its **cover can be removed**. There are three bed sizes to choose from: **single, double and three-quarter**.

The bed's "collar" can be rolled up or down like a **turtleneck**, creating three different options: open, semi-closed or completely closed, for a **more intimate space**. The Colletto bed can be paired with Colletto bedside tables to create an even more harmonious and original look.

### A PROTECTIVE ALCOVE

By raising and lowering the bed's fabric ring, it is up to you to choose the right atmosphere for a peaceful sleep. You can choose different border configurations: open, half-open or closed "collar".
